

Soil Nutrition Solutions

## L-CBF TERRAFED™ 1-0-3

L-CBF TERRAFED™ 1-0-3 is a complex carbon-based agronomy product designed to **positively impact soil biology and enhance nutrient availability**. L-CBF TerraFed™ uses a safe approach to driving yields, improving fertilizer performance and sustaining plants in a non-GMO and/or certified organic setting.

### SUPERIOR CONSISTENCY

L-CBF TerraFed™ is manufactured using a domestic grown, non-GMO sugar sourced from QLF sugar cane molasses, providing a consistent based product directly from the origin to our manufacturing plants.

### ENHANCED PLANT AND SOIL HEALTH

L-CBF TerraFed™ supplies a form of complex carbohydrates (Sucrose, Fructose, and Glucose) to aid in utilization of nutrients essential for plant growth, feeding microbiology and improving healthy and productive soils.

### FERMENTATION YEAST EXTRACT

L-CBF TerraFed™ contains proprietary metabolites that assist biological functions aiding microbial activity and improved nutrient utilization.

### NATURAL FORMS OF NUTRIENTS

L-CBF TerraFed™ contains Nitrogen, Potassium, and Micronutrients packaged with a natural chelating agent and stabilizer (Citric Acid) to improve plant performance and better root development.

\*QLF Agronomy L-CBF is a combination of balanced crop nutrients with complex carbon resources.
